

Design. Thoughtfully Layered.

Every project is a conversation
between people, place, and purpose
and we listen with design.

Designers of space, story, and experience.
Welcome to Dimensiq Designs.

A multidisciplinary design studio where
architecture, interiors, furniture, textiles,
branding and strategy converge.

From a quaint town in Kerala to the global design stage, Dimensiq Designs has evolved from modest beginnings into a boundary-pushing creative powerhouse. What started as a small vision is now a multidisciplinary design studio crafting experiences that resonate across industries and continents. Built on passion, precision, and purpose, our journey is a testament to the power of good design.

One Studio, Many Dimensions.

Design is more than what meets the eye, it's how it lives. We craft thoughtful, dimensional solutions across space, story, and system. Our strength lies in designing holistically, with clarity, creativity, and care.

Branding & Communication Design

Art & Curation

Architecture

Architecture that honors its surroundings, embraces its users, and elevates everyday experience.

Architecture is viewed as a seamless blend of purpose, aesthetics, and place. Each project begins with a deep understanding of site, context, and client need, evolving into built forms that are both functional and inspiring. From early ideation to detailing, the process considers spatial flow, environmental impact, and materiality, ensuring that the final outcome is meaningful, sustainable, and enduring. Whether in dense urban contexts or quiet rural landscapes, the approach remains grounded in clarity, responsiveness, and timeless design.

Interior Design

Designing not just spaces, but atmospheres - intentional, immersive, and intimately yours.

Interior spaces are crafted to enhance the everyday, shaped by emotion, behavior, and functionality. From layout optimization to material selection and detailing, every element contributes to a unified whole that feels intentional and personal. Whether residential, retail, or commercial, interiors are developed to support the user's experience while maintaining aesthetic integrity. Layered textures, thoughtful lighting, and bespoke furnishings come together to create spaces that are not only visually compelling but also deeply livable.

Landscape Design

Where the built meets the organic. Creating outdoor spaces that breathe, evolve, and belong.

Landscape design is treated as an integral part of spatial experience, bridging built structures with the natural world. Careful attention is given to climate, ecology, movement, and usability to create outdoor spaces that are immersive and enduring. From lush courtyards to expansive grounds, each design considers hardscape, planting, water elements, and environmental transitions. The result is a landscape that is not only beautiful but also rooted in sustainability and cultural relevance.

Furniture Design

Custom pieces that speak the language of their surroundings, expressive, ergonomic, enduring.

Furniture is designed to be both functional and expressive, crafted to respond to space, scale, and purpose. Custom pieces are developed with close attention to material, ergonomics, and visual language, often in collaboration with skilled artisans and fabricators. Whether built-in or freestanding, furniture becomes an extension of the environment it inhabits, enhancing spatial identity while offering tactile, human-centered interactions.

Textile Design

Crafted surfaces that do more than decorate, they narrate and connect.

Textile design explores surface and material as a medium for storytelling. Patterns, textures, and compositions are developed for both interior and fashion applications, merging traditional craft techniques with modern experimentation. The process involves deep material research, color development, and visual iteration, resulting in textiles that are not only decorative but also functional, expressive, and tactile. Whether used for furnishings, installations, or apparel, each textile adds a unique dimension to the overall design narrative.

Branding & Communication Design

Every brand has a story. We give it voice, shape, and presence.

Branding is approached as a fusion of strategic clarity and design-driven storytelling. Identities are built from the ground up, starting with purpose and evolving into cohesive visual systems that extend across print, digital, and physical spaces. Whether creating a new brand or evolving an existing one, the focus remains on creating authentic, memorable communication that resonates with its audience. Typography, imagery, color, and narrative work together to create visual languages that are consistent and compelling.

Art & Curation

Art chosen with purpose, shaping atmosphere, elevating meaning, and completing the spatial story.

Art is curated to elevate and complete the spatial experience, adding emotional and symbolic depth. Each project involves selecting, commissioning, or collaborating with artists to bring in pieces that align with the tone and purpose of the space. From feature installations to subtle accents, artworks are placed with intention, enriching the narrative and inviting reflection. The curation process respects context, identity, and storytelling, allowing art to become an integral part of the design dialogue.

Headquarters - Thrissur, Kerala

Door no: 5/428/42, Sayoojyam, First Floor, P T Mannual Road,
Thiruvambadi Post, Peringavu, Thrissur,
Kerala - 680022

9995885166 | 9847255607

Design Studio - Bangalore, Karnataka

Operating through flexible co-working spaces. Meetings are
by appointment and scheduled at locations best suited to
the work at hand.
